

Submerge: Til We Become the Sun

Maxwell

Over to under
Enter your wonder, baby
Submerge into me, baby
And take me to higher
Submerge within the light
Illuminate my night
Let your atmosphere surround me
Submerge within the light all night
Til we become the sun
Til we become the sun
See if I'm breathing
'Cause I'm not sure tonight if I'm alive
Words are demeanin' they can't describe
Submerge within the light
Illuminate my night
Let your atmosphere surround me
Submerge within the light all night
Til we become the sun
Til we become the sun
Submerge within the light
Illuminate my night
Let your atmosphere surround me
Submerge within the light all night
Til we become the sun
Til we become the sun
Oh, my God
Til we become the sun
Submerge within the light
Illuminate my night
Let your atmosphere surround me
Submerge within the light all night
Til we
Til we become the sun
Submerge within the light
Illuminate my night
Let your atmosphere surround me
Submerge within the light
Illuminate my night
Let your atmosphere surround me
Submerge within the light
Illuminate my night
Let your atmosphere surround me
Submerge within the light all night
Til we become the sun
Til we become the sun
