

# To the Light

## A.CHAL

I found a way, to that light  
Ah, fuck the money, I found the li-ight  
I said I found a way, to that light  
To that light, I got it right I said I found a way, to that light  
Ah, fuck the money, I found the li-ight  
I said I found a way, to that light  
To that light, I got it right  
I said I found a way, to that light  
Ah, fuck the money, I found the li-ight  
I said I found a way, to that light  
To that light, to that light  
Blowin' all this cash on the things that never last  
I don't want it, you can have it  
Countin' up this bag while I'm smokin' out the bag  
With my brother, yo roll another  
Eyes bloodshed, marijuana  
Starin' at the eyes of my karma  
I'm bumpin' Michael Jackson and Nirvana  
I'm tryna find my way to Madonna I said I found a way, to that light  
Ah, fuck the money, I found the li-ight  
I said I found a way, to that light  
To that light, I got it right  
I said I found a way, to that light  
Ah, fuck the money, I found the li-ight  
I said I found a way, to that light  
To that light, I got it right  
Now I see the signs, that's why I'm pressin' decline  
When you call me, ain't tryna hear it (hello?)  
I turn to the guy that you said I couldn't ride  
Like it's magic, I'm disappearin'  
Head lookin' down at my karma  
I've been doin' things how I wanna  
Focused on the fam and mi casa  
What you talkin' 'bout? What you follow? I said I found a way, to that light  
Ah, fuck the money, I found the li-ight  
I said I found a way, to that light  
To that light, I got it right  
I said I found a way, to that light  
Ah, fuck the money, I found the li-ight  
I said I found a way, to that light  
To that light, I got it right
