

Anchor

Alejandro Escovedo

I? ve always loved your love
In and out Up and down
If your love is a ship
I pull your anchor and I Christen itI? m in love with love
(I? m in love)
And it broke me in two
(in two)
I? m in love with love
Look out baby, It? s gonna break you tooI? d pull your ship across the ocean wide
Hold my breath
And dive dive dive
If they held me at the bottom
Then asked me why
I? d open my mouth and I? d tell em why? cause
I? m in love with love
(I? m in love)
And it broke me in two
(in two)
I? m in love with love
So look out baby, It? s gonna break you tooWe? re huddled up on benches
We? re saying our prayers
Two lovers in the mist
With the salt in their hairI? m in love I? m in loveAnd it broke me in two
I? m in love I? m in love
It? s gonna break you too
Yes it will
The waves are breaking in a foreign tongue
Understand but I? m feeling numb.
If your love was a ship
I? d pull your anchor and hang on to itI? m in love with love
(I? m in love)
And it broke me in two
(in two)
I? m in love with love
So look out baby
It? s gonna break you tooI? m in love with love
(I? m in love)
And it broke me in two
(In two)
I? m in love with love
So look out baby
It? s gonna break you tooOh I? m feelin love

I? m feeling the love babe
Yeah, I? m feeling love
