

# Anchor

## Alejandro Escovedo

I? ve always loved your love  
In and out Up and down  
If your love is a ship  
I pull your anchor and I Christen itI? m in love with love  
(I? m in love)  
And it broke me in two  
(in two)  
I? m in love with love  
Look out baby, It? s gonna break you tooI? d pull your ship across the ocean wide  
Hold my breath  
And dive dive dive  
If they held me at the bottom  
Then asked me why  
I? d open my mouth and I? d tell em why? cause  
I? m in love with love  
(I? m in love)  
And it broke me in two  
(in two)  
I? m in love with love  
So look out baby, It? s gonna break you tooWe? re huddled up on benches  
We? re saying our prayers  
Two lovers in the mist  
With the salt in their hairI? m in love I? m in loveAnd it broke me in two  
I? m in love I? m in love  
It? s gonna break you too  
Yes it will  
The waves are breaking in a foreign tongue  
Understand but I? m feeling numb.  
If your love was a ship  
I? d pull your anchor and hang on to itI? m in love with love  
(I? m in love)  
And it broke me in two  
(in two)  
I? m in love with love  
So look out baby  
It? s gonna break you tooI? m in love with love  
(I? m in love)  
And it broke me in two  
(In two)  
I? m in love with love  
So look out baby  
It? s gonna break you tooOh I? m feelin love

I? m feeling the love babe  
Yeah, I? m feeling love
