

Never Stop (Wedding Version)

SafetySuit

This is my love song to you
Let every woman know I'm yours
So you can fall asleep each night, babe
And know I'm dreaming of you more
You're always hoping that we make it
You always wanna keep my gaze
Well you're the only one I see, love
And that's the one thing that won't change
I will never stop trying
I will never stop watching as you leave
I will never stop losing my breath
Every time I see you looking back at me
I will never stop holding your hand
I will never stop opening your door
I will never stop choosing you, babe
I will never get used to you
And with this love song to you
It's not a momentary phase
You are my life, I don't deserve you
But you love me just the same
And as the mirror says we're older
I will not look the other way
You are my life, my love, my only
And that's the one thing that won't change
I will never stop trying
I will never stop watching as you leave
I will never stop losing my breath
Every time I see you looking back at me
And I will never stop holding your hand
I will never stop opening your door
I will never stop choosing you, babe
I will never get used to you
You still get my heart racing
You still get my heart racing for you
You still get my heart racing
You still get my heart racing for you
I will never stop trying
I will never stop watching as you leave
I will never stop losing my breath
Every time I see you looking back at me
And I will never stop holding your hand
I will never stop opening your door
I will never stop choosing you, babe
I will never get used to you
You still get my heart racing
You still get my heart racing for you
You still get my heart racing
You still get my heart racing for you
You still get my heart racing
You still get my heart racing for you

You still get my heart racing
You still get my heart racing for you
