

# Fit for a King (Stripped)

Tilly Valentine

[Verse 1]

Nothing left to say and nothing left to do  
You made up your mind, and mine's been made up too  
Maybe I deserve this, maybe you were right  
You made your bed now sleep in it, and I'll kiss you goodnight [Chorus]

Our love was fit for a King  
But you weren't ready for royalty  
You left me with nothing  
Never was your priority  
You tell me you'll change  
But you're still stuck in your ways  
I don't think that we can go back to when  
Our love was fit for a King

[Verse 2]

Sat upon a throne, I offered you a seat  
You'd rather sit alone, now I'm sat at your feet  
Everything was perfect, but you left it behind  
Really hope that it was worth it, 'cause I can't change your mind [Chorus]

Our love was fit for a King  
But you weren't ready for royalty  
You left me with nothing  
Never was your priority  
You tell me you'll change  
But you're still stuck in your ways  
I don't think that we can go back to when  
Our love was fit for a King

[Chorus]

Our love was fit for a King  
But you weren't ready for royalty  
You left me with nothing  
Never was your priority  
You tell me you'll change  
But you're still stuck in your ways  
I don't think that we can go back to when  
Our love was fit for a King
