

# Sunrise (feat. April Bender)

## ARTY

[Verse 1]

Some days it's hard to make it  
But I know we'll make it through  
These winds are always changing  
But I'm holding on to you[Pre-Chorus]  
I know that there are ups and downs  
It's hard to stand and face it  
As long as we're together now  
The moment's never wasted

[Chorus]

Some love is made for the daylight  
Some love is made just for midnight  
Our hearts will fade into black skies  
Then we'll come back to life in the sunrise  
Hello will turn into goodbye  
But you know we're still on the same side  
Our hearts will fade into black skies  
Then we'll come back to life in the sunrise[Post-Chorus]  
Then we'll come back to life in the sunrise[Verse 2]

Sometimes it's like a rainstorm  
All our problems pouring down  
But I'm not running from the real thing  
This feeling we found

[Pre-Chorus]

I know that there are ups and downs  
It's hard to stand and face it  
As long as we're together now  
The moment's never wasted[Chorus]  
Some love is made for the daylight  
Some love is made just for midnight  
Our hearts will fade into black skies  
Then we'll come back to life in the sunrise  
Hello will turn into goodbye  
But you know we're still on the same side  
Our hearts will fade into black skies  
Then we'll come back to life in the sunrise[Outro]  
Some love is made for the daylight  
Some love is made just for midnight  
Our hearts will fade into black skies  
Then we'll come back to life in the sunrise
