

Still Your Girl

Somi

If i told i'm falling
You would hold me close and take the pain away
If i came to you crying
You'd just smile and tell me everything's okay
And you are the only one
My remedy to a cold, cold world
When the lights blackout
And i can't see past of the shadow
You make it easier
Easier to breathe
I know oh oh
It's gonna be fine oh oh
I'll be alright
Because i got you
I'd die for you
Run a million miles for you
We're living in a mad, mad world
But i'm still your girl
I'm still your girl
When i feel like I'm losing
You grab my hand, turn to me and say
Baby you're the winner
It must be the way you love me
Yeah that's the how you make it better
And you are the only one
My remedy to a cold, cold world
When the lights blackout
And i can't see past of the shadow
You make it easier
Easier to breathe
I know oh oh
It's gonna be fine
I'll be alright
Because i got you
I'd die for you
Run a million miles for you
We're living in a mad, mad world
But i'm still your girl
Yeah you gave me love when i needed love
And you lift me high when i needed life
There's no greater treasure than you
Oh you, yeah it's you, only you

Oh i'm still your girl
It's gonna be fine oh oh
I'll be alright
Because i got you
I'd die for you
Run a million miles for you
We're living in a mad, mad world
But i'm still your girl, still your girl
Still your girl, still your girl
I'm still your girl, still your girl
