

# Double Coyote

## Damn Yankees

I was standing on the corner  
With a suitcase in my hand  
There was a woman right behind me  
Sayin' honey won't you be a man  
I said, I'd love to baby  
But I've got to go be with the band I got to go, go, go  
Go baby, go  
Go honey, go  
Double coyote man  
I got to go, go, go  
Go baby, go  
Go mama, go  
Double coyote man I couldn't believe it when somebody said  
You was out on the road with another band I got to go, go, go  
Go baby, go  
Go mama, go I got to go, go, go  
Go baby, go  
Go mama, go  
Double coyote man, yes I am  
We all worked this thing out now, come on  
I couldn't believe it when somebody said  
You was out on the road in the back of the bus  
With the opening act and the technical crew  
And the manager too, what's the matter with you?
