

# Honey

## Erykah Badu

So tell me Slim what you wanna do  
When you know I'm in love with you  
Every time that I turn around  
Look for you but you can't be found Fly free baby, fine with me  
I'm in love with a bumble bee  
Ooh Slim boy, you killing me  
But you so sweet to me Honey, you so sweet  
Sugar, gone a long way to catch you  
You so sweet  
All I gotta do is add a little lemon  
You my favorite drink  
You make me think  
Honey, you so sweet  
So tell me Slim what it's gonna be  
It don't be like this usually  
When it come to the, "What it do?"  
I don't fall for that, "Woop-tee-woo" Boy, can you tell me please?  
Wanna know if you feeling me  
Slim boy, you killing me  
But you so sweet to me Honey, you so sweet  
Sugar, gone a long way to catch you  
You so sweet  
All I gotta do is add a little lemon  
You my favorite drink  
You make me think  
Honey, you so sweet  
You got that honey, you running from me  
You really turn me on  
You got that honey, stop acting funny  
You really turn me on So tell me Slim what you trying to do  
I'm tryna get me your interview  
Look for you all over town  
But you gave me the run-around Fly free baby fine with me  
I need to know, is you feeling me?  
Can you stick your pinky finger in my tea?  
'Cause you're so sweet to me Honey, you so sweet  
Sugar, gone a long way to catch you  
You so sweet  
All I gotta do is add a little lemon  
You my favorite drink  
You make me think  
Honey, you so sweet

Honey, honey, honey, say You got that honey, you running from me  
You really turn me on  
You got that honey, stop acting funny  
You really turn me on You got that honey, you running from me  
You really turn me on  
You got that honey, stop acting funny  
You really turn me on
