

Heartache

Suzy Bogguss

(Lowell George/Ivan Ulz) I'm here out of love and I wish I could stay
But I know you heartache you'll stand in my way
There's no use in wishin' 'cause I ain't satisfied
I'm fit to be a misfit when you're at my side Heartache find another place to be
I'm tired of being your best friend
Look to another for your companion
And when you do my pain will end
There's nowhere at all I'm feeling no pain
My body is sickly and my mind is insane
I call on you heartache to come show me how
I can't get no lower than this hole I'm in now Heartache find another place to be
I'm tired of being your best friend
Look to another for your companion
And when you do my pain will end
Heartache find another place to be
I'm tired of being your best friend
Look to another for your companion
And when you do my pain will end When you do my pain will end
