

# Don't Go Alone

## CRUISR

Left you, and went away  
You need to get it on straight  
Dependent on company  
You show em off and take em to the streets sayin'  
Who's around, for getting down tonight  
It'll get you to, even get you through July  
She don't go alone no  
She don't need to wait around, wait around  
She won't go alone 'cause  
It's easy to get around, get around  
Here's it goes, another one  
All show and all fun  
Crumbles at your feet  
You shrug it off and hide it in the sheets sayin'  
Who's around, for getting down with me  
It'll get you to, even get you through the week  
She don't go alone no  
She don't need to wait around, wait around  
She won't go alone 'cause  
It's easy to get around, get around  
She was sitting on the source  
Making all the boys say  
I want you, I want you  
Sitting on the source  
Making all the boys say  
I want you, I want you  
She don't go alone no  
She don't need to wait around, wait around  
She won't go alone 'cause  
It's easy to get around, get around  
She don't go alone no  
She don't need to wait around, wait around  
She won't go alone 'cause  
It's easy to get around, get around
