

Shadow With a Dagger

Tyler and the Tribe

I'm not the guy
That you thought I was
I will betray you
Just because Can't you remember
How things used to be
I'll tell you all you want
But you still can't see You are the worthless
With your male parts
Lyin' merciless as the
Queen of Hearts
A bad seed from
The good farmer
And all you wanna be
Is the snake charmer I'll give it all away
I won't work today
I'll expose my yellow
Embrace complacency
There's nothin' I need
The smoke makes me mellow
I'll take my chance when I see you stagger
Don't you know by now,
I'm your shadow with a dagger Your blind ignorance isn't
All that dark
I wait lyin' here and hope for your
Twisted remarks
My shoulder starts to freeze
As I turn my back on you
Things just seem to change
Guess I'm me and you are you
I'll give it all away
I won't work today
I'll expose my yellow
Embrace complacency
There's nothin' I need
The smoke makes me mellow
I'll take my chance when I see you stagger
Don't you know by now,
I'm your shadow with a dagger
Yeah! I'll give it all away
I won't work today
I'll expose my yellow
Embrace complacency

There's nothin' I need
The smoke makes me mellow
I'll take my chance when I see you stagger
Don't you know by now,
I'm your shadow with a dagger
