

Echo

Foxes

I can hear your thoughts
Please don't leave now
I can't sleep alone
Chasing the light until the dawn Thought we left a trail
Back to the way that it was
I can see it now
In your eyes you let it fall Running in a crypt
Of a thousand words
Hiding in the dark Where the violence starts Looking for a star
We've gone too far
Too far
Don't hide in the dark
Playing shadow games
Turn out the lights uuu
Time for a change Cause the devil, he sleeps in your head
Don't hide in the dark
Playing shadow games
Turn out the lights uuu Didn't you say we would stay
Til we heard the last Echo, echo, echo
Look into my eyes
Do you see something to defend?
Spinning in the lights Will I grow old before I die?
Silence is a curse
I feel it breaking the ice
I can see it now
In your eyes you let it fall
Running in a crypt
Of a thousand words
Hiding in the dark
Where the violence starts Looking for a star
We've gone too far
Too far
Don't hide in the dark
Playing shadow games Turn out the lights uuu
Time for a change
Cause the devil sleeps in your head
Don't hide in the dark
Playing shadow games
Turn out the lights uuu
Didn't you say we would stay
Til we heard the last
Echo, echo, echo

yeah yeah ah huh ah huh way a way oh

You got to be the star
turn off the darling lights
The dark is on your side
You got to beat it
