

# Fireflies

Rhett Miller

[Rhett]

You look like my mother  
did when she was nineteen,  
not afraid to die

I started planning our future  
when you were just nineteen,

I stole a firefly[Rachel]

You got terrible vision  
should have seen I was leaving  
when I first appeared

I got bit by the footlights  
got caught in the headlights  
in any place but here.

[Both]

Never say you'll never leave,  
cause you'll never know til you try

In a jar, fireflies

only last for one night

only last for one night[Rachel]

Trains roll, like camels in slow mo

Tryin' to find good love

well it couldn't find them[Rhett]

Oh yeah, and I'm

gonna sleep on the train tracks

It's gonna be peaceful

and it's gonna rough

[Both]

Never say you'll never leave,  
cause you'll never know til you try

In a jar, fireflies

only last for one night

only last for one night[Both]

I must have had reason for leaving[Rhett]

Not one I could see[Both]

I must have had reason for leaving[Rhett]

Must have been me[Both]

Must have been me[Rhett]

You look like my mother  
did when she was nineteen,  
not afraid to die[Rachel]

For the last time,

I'm not your mother

And I was only nineteen  
when I stole a firefly
