

# U12

## Daya

Got sixteen candles make a wish and blow them out  
Hoping for those three words you never say out loud  
I know you play cool but I know you think about it  
So make my wish come true and do something about it  
All they ever say is we're too young to  
Ever fall in love but I know I want to  
All they ever say is we're too young to  
Ever fall in love but I hope you want to too  
I don't know why they say young hearts are such a  
mystery  
Feels like this thing we got is part of ancient history  
The way you look at me and kiss me is so classic  
So let the haters do their thing 'til they get past it  
All they ever say is we're too young to  
Ever fall in love but I know I want to  
All they ever say is we're too young to  
Ever fall in love but I hope you want to too  
3-4-5-6-boy you're my lucky 7  
And I'm your 10, you're takin' me to heaven  
3-4-5-6-boy you're my lucky 7  
And I'm your 10, you're takin' me to heaven  
All they ever say is we're too young to  
Ever fall in love but I know I want to  
All they ever say is we're too young to  
Ever fall in love but I hope you want to too
