

Warrior Song (feat. Alicia Keys)

Nas

Uh, If I can teach somethin' so be it
And hope somebody learn somethin' from it (teacher!)
And give it back They can't break me or shake me
They too fake to come kill me
Think they faith this was satan
They mistake me I'm filthy
Rich off the ghetto madness, so now they wanna dare me
It's gonna be a murder confront me, the burners are empty
Middle Passage I made it
I'm from the land of David
The Nazarene of Bethlehem they had me wrapped in blankets
That bunch of backward gangsters
That sign of Alpha Davis
Snitches with smile-like faces got you blowin' trial I hear this
Hopin' my child can see through this tryna be a good daddy
I was there when she was born and she'll be there when I'm buried
Kind o' waitin' is scary
All my years have prepared me
What I fear is my temper, I see clear to the center
Right through a man's soul
Straight through his eyes, straight to his heart
I'm still alive how did I make it this far
'Cause I been high I been low, searchin' for a way to go
Every single night I pray
And Lord I'm on this battleground, lost just waitin' to be found
I guess it's just a warrior's way This is the song, of my warriors, A warrior song, my lord
Bravehearted and strong, definition of a warrior (Definition of a warrior)
Gonna keep marchin' on, to the sound of our own beatin' drum
Like King Nasir fightin' the British regime
I can't cope my existence is hope for younger teens who lost and they broke
Earlier this year I buried my queen in a gold casket
Your mother's the closest thing to God that you ever have kid
I'm askin, what would you do at your own mom's funeral
Wanna pick her up out of it, this can't be real
Tellin' my daughter grandma's gone, but I can't keep still
I can't go on, responsible for so many
Her last days at the hospital
Visits from family I'm tryin' not to bust shots at niggas
Wishin' death on other nigga's mothers ain't right but why mommy
She raised me in the projects alone
Her untimely exit from her, heavenly body
Got me ready to embody somethin' quickly

Can't be happy, fuck a party she can't party with me
 So your apologies are burnin' ya own souls
 To the kids with no parents at home, grab a hold
 This is the song, of my warriors, A warrior song, my lord
 Bravehearted and strong, definition of a warrior (Uh, warriors)
 Gonna keep marchin' on, to the sound of our own beatin' drum
 Fight 'til the fight is over, for my peoples I die see
 When you thought they were soldiers they turned out to be nobodies
 I think they out to get me, helpless was livin' sinful
 If you was me all this pain I'm feelin would bend and killed you (I'm a
 Warrior)
 It only made me stronger
 But in my head it gets darker who wishin' evil on ya
 Sometimes I wish I was dead
 But I took heed to the cause (I'm a Warrior, yeah)
 'Cause I been high I been low, searchin' for a way to go
 Every single night I pray
 And Lord I'm on this battleground, lost just waitin' to be found
 I guess it's just a warrior's way
 This is the song, of my warriors, A warrior song, my lord
 Bravehearted and strong, definition of a warrior (Definition of a warrior)
 Gonna keep marchin' on, to the sound of our own beatin' drum
 To my warriors
 To all these, baby
 KrucialKeys! Braveheart y'all
 definition of a warrior (with alicia)
 This to all my warriors, who breathe with the heart of a lion
 To everybody that lost their mother, their father
 Rest in peace moms!
 My mother's last words: Never give up
 A true warrior, who raised me in the hood, in a war
 Love ya girl, y'kno keep marchin'
 Yea yea yea, you never give up
 To all my warriors ha ha
 Braveheart, Braveheart
 Definition of a warrior
