

Pale Moonlight (How Many Times)

[Stephen Marley](#)

How many times I told you I love you?
And now you wanna say that we are through
What more can I do?
What more can I say to you? Now you're gone
Do you remember that first night we met?
That was a moment I never will forget
Love was at first sight, and you came walking through the pale- pale moonlight
P-p-pale, p-p-pale, Pale moonlight
Do-do-do-wapchoo-wapchoo wap do (x3)
Stoodildoodlewapchoo -wapchoo wap do
How many times I told you I love you
But now you want say that we are through
What more can I do?
What more can I say to you? Now you're gone
Do you remember that first night we met?
That was a moment I never will forget
Love was at first sight, and you came walking through the pale- pale moonlight
P-p-pale, p-p-pale, Pale moonlight
Do-do-do-wapchoo-wapchoo wap do (x3)
Stoodildoodlewapchoo -wapchoo wap do
How many times I told you I love you
But now you want say that we are through
What more can I do?
What more can I say to you...?
