

Breathe (feat. Jem Cooke)

CamelPhat & Cristoph

You're hurting so much
I need you to breathe again
You have been hurting so much
I need you to breathe again
Skin, I'm folding
Come in, my friend
You feel unsteady
But I won't bend
You're hurting so much
I need you to breathe again
You have been hurting so much
I need you to breathe again
We tear our demon
You feel no pain
In the sweet surrender
Alive again
You're hurting so much
I need you to breathe again
You have been hurting so much
I need you to breathe again
You're hurting so much
I need you to breathe again
You have been hurting so much
I need you to breathe again
