

# Liquorlip Loaded Gun

## Sticky Fingers

i wish i could disappear  
so you would never see me in this mess i get in  
however hard i try keep on stumbling still  
once in a while i'll show you who i am  
when i can open up the ocean jump on in  
the masters of the coastlines beckoning  
unfold my only life vest sink or swim  
through the everlasting worlds begin  
in the night i went out searching  
it took me three years and a girl  
we was blinded by the stars that hit  
our gentle little world  
the rocks turned into water  
and what was clear become a blur  
we was good but the bad got worst  
the sinking ship began to burn  
so i shook across her mountain face  
cause im a liquorlip loaded gun  
look and talk through eyes that sting  
and then a stranger to me sung open up the ocean jump on in  
the masters of the coastlines beckoning  
unfold my only life vest sink or swim  
through the everlasting world begin  
standing on my hairdo  
tangled up in a blue  
rambling cut my front tooth  
another buster knuckle bruise  
not a shining golden airplane  
gifted full of booze  
even flying at the speed of light  
reaches high enough for you
