## Before Today (Adam F Remix) [2015 Remaster]

## **Everything But the Girl**

I don't want excuses I don't want your smiles I don't want to feel like we're apart a thousand milesAnd I don't want your attitude I don't want your things I don't want a phone that never ringsI want your love And I want it now I want your love And I want it nowI don't want your history I don't want that stuff I want you to shut your mouth That would be enough I don't care if you've been here before You don't understand Tonight I feel above the law, I'm coming into landI want your love And I want it now I want your love And I want it nowMy heart is that much harder, now That's what I thought, before today My heart is that much harder, now And I thought that it would stay that wayBefore todayBefore todayI don't want a phone that never ringsI want your love And I want it now I want your love And I want it now I want your love I want your love
