

Terminal

Paradise Lost

A frail form surrounds
Infection, sorrow, screams aloud
Trade your soul connect to fear
Feeding death, tormented downed Forget the past, are you still believing tonight's denial
dominates the dreaming A veiled mourner's frown
Tomorrows dreams confound
Trade the souls you hold most dear Into darkness you're the last Forget the past, are you still
believing
Tonight's denial dominates the dreaming I can hope as silence and torture grows
The violence we now condemn infests our inner souls Regret the past, are you still believing,
tonight's denial dominates the dreaming I can hope as silence and torture grows
A frail form surrounds
Infection, sorrow, screams aloud
Trade your soul connect to fear
Feeding death, tormented downed
