

Breathe

Mako

Another night up at the bar late
Skinny dresses and heartbreaks
There's nothing magical going on
Then along came you
All the lights are down low
And I keep losing my focus
There's something happening
I can't keep cool Oh, I can't sleep
I'm dancing with adrenaline
I can't speak
Hands that keep trembling
I've been so weak
When you make an entrance
Til when you leave
I can hardly breathe
Oh, darling, I can't breathe
I can hardly breathe
Oh, darling, I can't breathe
Can hardly breathe
Oh, I can hardly breathe
Can hardly breathe
Oh I, oh I
Can hardly-And now you're killing me softly
You're saying things with your body
So I take your hand and then we go
All eyes on you
And I'll pull you in closer
You got me hooked, and you know it
You're like a gamble
But I love playing it loose
Oh, I can't sleep
I'm dancing with adrenaline
I can't speak
Hands that keep trembling
I've been so weak
When you make an entrance
Til when you leave
I can hardly breathe Oh, darling, I can't breathe
I can hardly breathe
Oh I, oh I
Can hardly breathe
Oh, I can hardly breathe

Can hardly breathe
Oh, I can hardly-Oh, tell me what you've done, I'm awoken
And I love her more every moment
So, give me something for when you leave
'Cause I can hardly breatheOh, I can hardly breathe
Oh, I can hardly breathe
Oh, I can hardly breathe
