

# In the Room

Jason Nelson

I can hear the Lord saying 'I'm awake  
And I've heard your prayer  
No matter how you feel  
Know that I am still in control  
Know that I am here  
And whatever you need  
It's in the room I can hear the Lord saying 'I'm awake  
And I've heard your prayer  
No matter how you feel  
Know that I am still in control  
Know that I am here  
And whatever you need  
It's in the room  
Whatever you need  
Whatever you need  
Whatever you need  
It's in the room  
Whatever you need  
Whatever you need  
Whatever you need  
It's in this room Sing whatever you need  
Whatever you need  
Whatever you need  
It's in the room Hear me when I say, whatever you need  
Whatever you need  
Whatever you need  
It's in the room  
Tell somebody, say whatever you need  
Lord's got the remedy  
Whatever you need  
It's in the room Tell them  
Say healing is here  
Break through is here  
Joy is here  
And it's in the room  
Hear me when I tell you  
Healing is here  
Your break through is here  
Joy is here  
And it's in the room  
If you sing  
Healing is here

Deliverance, your break through is here  
And you're gonna smile again, your joy is here  
And it's in the room  
One more time, tell em, say  
Healing is here  
Break through is here  
And your joy is here  
And it's in the room  
Say whatever you need  
Whatever you need, yeah  
Whatever you need  
It's in the room  
Whatever you need, whatever you need  
Said whatever  
Reach out and get it, it's in the room  
Whatever you need  
It's in the room, say yeah  
Tell them, say  
Whatever you need  
You don't have to wait, it's here right now  
Whatever you need  
It's in the room, say it  
Tell somebody, whatever you need  
Healing, break through, change, deliverance  
Yes it is, yes it is, yes it is  
It's in the room Whatever you need  
It's in the room  
And no matter how you feel  
Know that I am still in control Know that I am king  
And whatever you need  
It's in the room
