

# In the Time It Takes (Duet With Paul Carrack)

[Beth Nielsen Chapman](#)

In the time it takes to tell you, I could show you  
In the time it takes to wonder, you could know  
Everything inside my heart, waiting for this dance to start  
All you gotta do, all you gotta do is let go  
In the time it takes to want me, you could have me  
And you'd never have to ask how much I care  
Love for me is not some game  
Any time you call my name, I'll, I'll be there  
Like a star that's traveled years to shine  
Like a song that waits to hear the rhyme  
In the time it takes  
In the time it takes  
Like a spark that makes your soul ignite  
Only love knows when that moment's right  
In the time it takes  
In the time it takes  
Nothing I wouldn't give  
Knowing I couldn't live without you  
And if I get my wish, Heaven's gonna help me  
Heaven's gonna make you mine  
Like a star that's traveled years to shine  
Like a song that waits to hear the rhyme  
In the time it takes  
In the time it takes  
Like a spark that makes your soul ignite  
Only love knows when that moment's right  
In the time it takes  
In the time it takes  
Like a star that's traveled years to shine  
Like a song that waits to hear that rhyme  
In the time it takes  
In the time it takes  
Like a spark that makes your soul ignite  
Only love knows when that moment's right  
In the time it takes
