

# Pigeon

## Cavetown

Circling around the kitchen  
Why has nothing changed  
Feed cucumber sandwich to a pigeon  
Chipping nail varnish on guitar strings  
Got a pillow case made out of money  
Feeling pretty fake when I wake up  
Tissue paper castle paper caddy  
Scaly little friend's got my backup  
Didn't give me time to say goodbye in the way that I wanted  
to  
So honey close your eyes and stay like you're supposed to do  
Don't you wanna give me time to write another song for you?  
Fuzzy feeling and I miss you  
Why can nothing stay the same  
Fucking stupid head I'm gonna kill you  
Melt all your art and drink the paint  
I am not a beast, I'm not a monster  
I don't care what you say  
You can't have the bad guys without a hero  
And I'm the only one who's got a cape  
Didn't give me time to say goodbye in the way that I wanted to  
So honey close your eyes and stay like you're supposed to do  
Don't know how I'm gonna live without  
But I'll stay strong for you
