

# Through the Dark

[KT Tunstall](#)

As I walk away, I look over my shoulder  
To see what I'm leaving behind  
Pieces of puzzles and wishes on eyelashes fail Ohh, how do I show all the love  
Inside my heart? Well, this is all new  
And I'm feeling my way through the dark And I used to talk with honest conviction  
Of how I predicted my word  
I'm gonna leave it to star gazers  
Tell me what your telescope says  
Ohh, what is in store for me now?  
It's coming apart I know that it's true  
'Cause I'm feeling my way through the dark Try to find a light on somewhere  
Try to find a light on somewhere  
I'm finding I'm falling in love with the dark, oh yeah Ohh oh, what do I know?  
I don't care where I start  
For my troubles are few  
As I'm feeling my way through the dark  
Through the dark  
I'm feeling my way through the dark
