

Champions (From "Hands of Stone")

Usher & Rubén Blades

No more war, no more war
What are we fighting for
El dolor que trae el fracaso
De la duda y la traición
Veo una vida hecha pedazos
Y ahí es donde nace un campeón I'll fight for my country
You fight for your country
We see the victory
They'll get the victory
Man a man, heart to heart
Face to face worlds apart
You and I, we're champions
Champions, champions
You fight for my country
I'll fight for your country
We see the victory
They'll get that victory
Man a man, heart to heart
Face to face worlds apart
You and I we're champions
Champions, champions
De amarguras y esperanzas
De las penas y el dolor
De una fé que todo alcanza
De allí es como nace un campeón No more blood, no more pain
No más ven watch the way
Wave your flag, and I'll wave mind
We gotta shift the paradigm I'll fight for my country
You fight for your country
We see the victory
They'll get that victory
Man a man, heart to heart
Face to face worlds apart
You and I we're champions
Champions, champions
I'll fight for my country
You fight for your country
We see the victory
They'll get that victory
Man a man, heart to heart
Face to face worlds apart
You and I we're champions

Champions, champions In the end it's all love
You can [?]
Sometimes [?]
But In the end it's all love Campeones en Panamá
