

# Remember Me

## Jacob Latimore

Remember Me - Jacob Latimore  
Tryna hide emotions, pride won't let it show  
And find myself wanting you more  
You're so afraid to falling,  
back to where we started  
Can't deny where you were before  
So, you ain't going nowhere  
Used to be us, young and in love  
Let's take it back right now  
You ain't going nowhere  
You're still mine  
Eyes don't lie  
Let's take it back, remember loving me  
I still can light your fire  
Remember loving me  
I still can light your fire  
Remember loving me  
I know when we touch, you fall back in love  
Girl, we know what it was  
Remember loving me,  
I know when we touch, you fall back in love  
Girl, there's no better us  
Can't predict the moment,  
I don't know where we're going  
Here and now is where you should be  
So, why you're hesitating?  
Both know how it ends  
I don't have to convince you to leave  
So, you ain't going nowhere  
Used to be us, young and in love  
Let's take it back right now  
You ain't going nowhere  
You're still mine  
Eyes don't lie  
Let's take it back, remember loving me  
I still can light your fire  
Remember loving me  
I still can light your fire  
Remember loving me  
I know when we touch, you fall back in love Girl,  
we know what it was  
Remember loving me,

I know when we touch, you fall back in love  
Girl, there's no better us  
Baby, I'm up now  
Remember loving me  
Baby, I'm up now  
Remember loving me
