

# We've Got Everything

## Modest Mouse

We've got everything  
We've got everything  
We've got everything down to a science so I guess we know everything  
We know everything (we know, we know)  
We know everything (we know)  
We know everything was built to expire so I guess we've done everything  
If we carried it out to sea pushed it over the edge we'd have all been through  
Well first off Gary got drunk fell asleep in his car til about noon  
Oh, flat Top Tony got all messed up split his lip chasing cheap perfume  
Well look at our boat in the bay it looks like some sad ass little canoe  
We've done everything (We've done, we've done, we've done)  
We've done everything  
We've done everything like trial by fire so I guess we'll stop trying now  
We've tried everything  
We've tried everything (We've tried)  
We've tried everything half assed and as liars and thats how we've got everything  
If we carried it out to sea pushed it over the edge we could have all been through  
Well no one even bothered showin' up but we still did what we should have thought through  
We crashed in like waves into the storm  
Didn't want it didn't need it but we knew that we could see it so we opened up the door  
We receded like waves out of the storm  
Didn't want it didn't need it but we knew that we could steal it, left it dying on the floor  
We've got, we've got, we've got, we've got, we've got  
We've got, we've got, we've got, we've got, we've got  
We've got  
We've got everything (We've got we've got we've got)  
We've got everything (We've got)  
We've got everything down to a science so I guess we know everything  
We've got everything (We've got everything)  
We've done everything (We've done everything)  
We've tried everything (We've tried everything)  
We've got everything (We've got, we've got, we've got, we've got)  
We've got everything
