

Groove City

Chocolate Milk

We know a place just right outside of Groove City
We wanna take you there
We wanna take you there People jam all night long
Now don't they look pretty
Outside of Groove City
And you got no time to be sidity All ya got to do is let your hair down and be free
No special pattern to follow
Just do your own thing
Be whatcha wanna be If you like to party, there is outside of Groove City
Where you forget your cares - and even what you wear
It's no bother to look fly
They like being skimpy - from the back to th' skinny
Outside of Groove City
All ya got to do is let down your hair and be free
No special pattern to follow
Just do your own thing
Be whatcha wanna be
Be whatcha wanna be Outside of Groove City
Groove City
Groove City
Groove City - yeah Outside of Groove City
Groove City
Groove City
Groove City - yeah (Groove City) There is a place (Groove City)
Where everybody grooves (Groove City)
