## **Do You Love What You Feel**

## **Rufus**

Do you love what you feel Cause I love what you do to me Do you love what you feel Cause I love what you do to meBabe, when you're holdin me Somehow you seem to set me free And when I dance with you, romance with you Is all I singDo you love what you feel Cause I love what you do to me Do you love what you feel Cause I love what you do to me I've spent so many nights Just taking fights within myself Until you came to me And held me like nobody elseDo you love what you feel Cause I love what you do to me Do you love what you feel Cause I love what you do to meTell me 'bout the way you like it Anything you want is right You and I are close together Your lovin' gets me feeling betterI wanna dance all I wanna dance all I wanna dance all nightEverytime you're holdin me Do you love what you feel Cause I love what you do to me Do you love what you feel Cause I love what you do to me
