

Telepathic

Starset

And if I had my way
I would run to the rescue
It never works that way
When you call a bluff Oh, all the fools rush in
It's a battle to surround you
And all the fools want in
But I'm not giving up I don't wanna let you go
But I can't stand to watch this I don't wanna let you know
But you can read my mind
I feel it all the time
Felt it all around you
You had me under spell right from the start
But I don't have a telepathic heart
Telepathic
Blind, I fall into the line
That's waiting just to get you
But I don't ever know just what we are
I don't have a telepathic heart Telepathic Look inside my brain
You'd know what I want before I tell you
Give me the words to say
To make it enough
Don't want your star-crossed fate You are the sun, I am the full moon
Don't leave me lost in vain
I can be what you want
I don't wanna let you go
But I can't stand to watch this
I don't wanna let you know
But you can read my mind
I feel it all the time Felt it all around you
You had me under spell right from the start
I don't have a telepathic heart
Telepathic
Blind, I fall into the line That's waiting just to get you
But I don't ever know just what we are
I don't have a telepathic heart
Telepathic And you always turn away
Back to the start where I break through You can run, you can run away
I will wait in the dark for you
Should've never fell this way
'Cause you're the sun and I'm just a moon
I'm in the dark 'till you light the way
'Cause I'm see through You can read my mind

I feel it all the time
Felt it all around you
You had me under spell right from the start
I don't have a telepathic heart
Telepathic
Blind, I fall into the line
That's waiting just to get you
But I don't ever know just what we are
I don't have a telepathic heart
Telepathic
