

Blackmagic

T.S.O.L.

I believe in magic
I don't believe in love
'Cause I read your starlines
I didn't see no love I saw your black cat
I saw your witch crafts
I don't need your 666 pack
I don't need your love Well you left yourself neaked
For me and my friends to see
Your iced over graveyard
Supposed to put a spell on me
I believe in magic
I don't believe in love
'Cause I read your starlines
I didn't see no love I saw you walkin' downtown
With a man in black yesterday,
No ifs, ands, or buts,
it doesn't really matter what you say, I saw your black cat
I saw your witch crafts
I don't need your 666 pack
I don't need your love
I believe (in black magic)
I believe (in black magic)
I believe (in black magic)
In black magic [repeat last stanza 6 times]
