

# Dancing on Glass (Joywave Remix)

## St. Lucia

Science and reason will tell us so  
The blood in our veins are just chemicals  
You'd better believe I keep my demons to myself  
You'd better believe it's getting harder  
But I'm never gonna stop until it's broken  
Never gonna stop until it's broken How long 'til we learn  
Dancing is dangerous  
How long 'til we find  
The devil inside of us  
How high is too low  
We're not that young  
So we're never gonna stop  
Never gonna stop  
Never gonna stop  
Until we break it Dancing on glass  
Dancing on glass We all have our secrets our secrets, no  
Our violence mistaken for silence, oh  
You'd better believe I keep my reasons to myself You'd better believe it's never been easier  
And we're never gonna stop until it's broken  
Never gonna stop until it's broken How long 'til we learn  
Dancing is dangerous  
How long 'til we find  
The devil inside of us  
How high is too low  
We're not that young So we're never gonna stop  
Never gonna stop  
Never gonna stop  
Until we break it Dancing on glass Dancing on glass  
Dancing on glass  
Dancing on glass  
Dancing on glass  
How long 'til we learn  
Dancing is dangerous  
How long 'til we find  
The devil inside of us  
How high is too low  
We're not that young  
So we're never gonna stop  
Never gonna stop  
Never gonna stop  
Until we break it  
How long 'til we learn

Dancing is dangerous  
How long 'til we find  
The devil inside of us  
How high is too low  
We're not that young  
So we're never gonna stop  
Never gonna stop  
Never gonna stop  
Until we break it  
Dancing on glass  
Dancing on glass  
Dancing on glass  
Dancing on glass
