

# Hold on Me (feat. Mammals)

Sam Padrul

I caught the train across the border around 7 or 8  
And I'm running later than I thought, but I don't really mind anyway  
Rolling with the mountains, climbing with the break of the day  
what can I say, what can I say Nothing like the present, giving up your past  
Leaving for the moment, love is all we ask  
Higher than a feeling, lighter cause we laugh  
Always moving forward, rhythm's turning back Nothing like the present, giving up your past  
Leaving on a moment, love is all we ask  
Higher than a feeling, lighter than a laugh  
Always moving forward, but nothing to be sad for  
(Coming your way)  
(Coming your way) I thought the world you were wondering was fading of late  
But a spark is in your eyes, it's kindling into a new flame  
Rolling with the punches, climbing to the top of the wave  
What can I say (Hold on me) Nothing like the present, giving up your past  
Leaving for the moment, love is all we ask  
Higher than a feeling, lighter cause we laugh  
Always moving forward, rhythm's turning back Nothing like the present, giving up your past  
Leaving on a moment, love is all we ask  
Higher than a feeling, lighter than a laugh  
Always moving forward, but nothing to be sad for  
(Hold on me)  
Always moving forward, but nothing to be sad for  
(Hold on me)  
Always moving forward, but nothing to be sad for  
(Hold on me)  
Always moving forward, but nothing to be sad for  
(Hold on me)  
Always moving forward, but nothing to be sad for  
(Hold on me)
