

# Bandstand In the Sky

Pete Yorn

So come with me to a place that we don't know  
Come with me, I just wanna say hello  
If you need some inspiration before we go, just know  
It's the way I have fallen in with you  
It's the way I have fallen in with you So come with me to a river I have seen  
On the way, we can wash off in the stream  
Time is waiting for the lightning to arrive  
You can take my life but I'll never die  
You can tell that's the way I'll survive So here we are now, a couple of fools  
Driving around, nothing to do  
We just made a bad decision, that's alright You can take my life, but I'll never die  
You can tell that's the way I'll survive  
Looking for the bandstand in the sky
