

Not over Yet (feat. Larry Soliman)

Memphis May Fire

She used to feel beautiful
Now she prays that she just won't feel at all
He used to believe he was strong
Undeatable by this army of one
It's all a lie when you believe you can't
If you're not trying
You're dying
When they try to tell you
That your one and only shot failed
It's not over yet!
Keep pushing forward
And I know one day you'll prevail
It's not over yet!
(It's not over yet!)
Falling down is life
Living is getting back up again
Keep fighting for a passion
And a will to live
Because I believe that your spark can start a fire
When they try to tell you
That your one and only shot failed
It's not over yet!
Keep pushing forward
And I know one day you'll prevail
It's not over yet!
It's not over yet
And turn it inside out
There's a Silver lining
I believe that your spark
Can start a fire!
When they try to tell you
That your one and only shot failed
It's not over yet!
Keep pushing forward
And I know one day you'll prevail
It's not over yet!
Keep on fighting for a better life
It's not over yet
Yeah!
Dream on
Dream on!
Raise your fist and scream
"it's not over yet"!
