

# Sandpaper and Silk

## Hawthorne Heights

Wait till after dark  
We'll try to make a mark  
One that stays until we're done  
And we'll pretend again  
Let's try not to forget where we are  
And who we're with Who we will find  
Miles can cut this tie we've made  
The sharp side of the blade  
As these words play out  
They'll try and drag you down  
You feel like one of them  
Who we will find Miles can cut this tie we've made  
The sharp side of the blade  
Make sure that you can keep it  
Make sure you keep it in your heart Miles can cut this tie we've made  
The sharp side of the blade Make sure that you can keep it in your heart  
Make sure you keep it in your heart Miles can cut this tie we've made  
The sharp side of the blade  
Miles can cut this tie we've made  
The sharp side of the blade  
Make sure that you can keep it  
Make sure you keep it in your heart Miles can cut this tie we've made  
The sharp side of the blade  
(In your heart)
