Sandpaper and Silk

Hawthorne Heights

Wait till after dark We'll try to make a mark One that stays until we're done And we'll pretend again Lets try not to forget where we are And who we're with Who we will find Miles can cut this tie we've made The sharp side of the blade As these words play out They'll try and drag you down You feel like one of them Who we will findMiles can cut this tie we've made The sharp side of the blade Make sure that you can keep it Make sure you keep it in your heartMiles can cut this tie we've made The sharp side of the bladeMake sure that you can keep it in your heart Make sure you keep it in your heartMiles can cut this tie we've made The sharp side of the blade Miles can cut this tie we've made The sharp side of the blade Make sure that you can keep it Make sure you keep it in your heartMiles can cut this tie we've made The sharp side of the blade (In your heart) Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
