

U Played (feat. Lil Baby)

Moneybagg Yo

Tay Keith, this too hard (Tay Keith, this too hard)
Tay Keith fuck these niggas up! I don't got a heart, but fuck it I'm paid
Lil A-B the body, he fresh out the cage
I'm still the same nigga from minimum wage
They tryna keep up, so they stalkin' my page
They do what I say, they tryna get saved
They line up to me like they coppin' the J's
I told her get right, start acting yo age, can't believe you tried it
Bitch, you played
Wanted a diamond choker, soon as our time was over
Bitch, you played
She wanna ride the Rover, told her her Uber was closer
Bitch, you crazy
She tried to show out in public, I cut the bitch off like its nothin'
Bitch, you played
She must've thought I was stupid,
I know she was fuckin' my cousin (Ooh)
I don't got a cold, I'm sipping on Hi-Tech
The Dusse, the yellow, I'm straight out the project
The first nigga play with me, he got shot at
100 some shots flipped a car, that's a car wreck
I really don't need to be speaking on it
But fuck it you know how it be when I get (What)
High off the motherfucking medicals (Up there)
Get in the booth, and go federal (Federal)
Copying my style, I had to go get that (Gimme that)
That boy get my motherfucking shit back
She wanna chill, but this ain't no kick back (Hurr)
Pass it to my teammate, I assist that
Straight to the jet, then I'm gone (Gone)
Land in a new time zone (Outta there)
All the hoes press niggas, lookin' skressed
They can't accept that I'm on
I don't got a heart, but fuck it I'm paid
Lil A-B the body, he fresh out the cage
I'm still the same nigga from minimum wage
They tryna keep up, so they stalkin' my page
They do what I say, they tryna get saved
They line up to me like they coppin' the J's
I told her get right, start acting yo age, can't believe you tried it
Bitch, you played
Wanted a diamond choker, soon as our time was over

Bitch, you played
She wanna ride the Rover, told her her Uber was closer
Bitch, you crazy (Yeah)
She tried to show out in public, I cut the bitch off like its nothin'
Bitch, you played (Crazy)
She must've thought I was stupid, I know she was fuckin' my cousin
Bitch, you played She out here wildin', tellin' her friends I'm buyin' her, flyin' her
Bitch, you childin'
I never mind' em, I'm getting mine
I'm one of the flyest, got no stylist
Pop my shit, Rolls truck my driveway
VS my teeth, I come through smilin'
Brand new loud, we come through wildin'
Couldn't get it up, now this shit just pilin'
Everybody drip, turn the hood to an island
Last name rich, first name notoriety
Gave my ho, [?]
Wish I would take lil' ho shopping
Soon as I do it, its foreign [?]
Still in the hood, I can never get cocky I don't got a heart, but fuck it I'm paid
Lil A-B the body, he fresh out the cage
I'm still the same nigga from minimum wage
They tryna keep up, so they stalking my page (Ah)
They do what I say, they tryna get saved
They line up to me like they copping the J's
I told her get right, start acting yo age, can't believe you tried it
Bitch, you played
Wanted a diamond choker, soon as our time was over
Bitch, you played
She wanna ride the Rover, told her her Uber was closer
Bitch, you crazy
She tried to show out in public (Ah),
I cut the bitch off like its nothing
Bitch, you played
She must've thought I was stupid, I know she was fuckin' my cousin
Bitch, you played
