

Blood Brothers

Gravediggaz

It is written (Manifest)
That all men are brothers (Prophecy)
We come like blood brothers (Word is bond)
Cuz blood is thicker than water (A-alike)
From the misty grounds (From the unknown)
The shadows (The deep)
The darkness (The triple darkness)
Gravediggaz (My blood brother)(Rzarector)
I grew up in the violent island of Shaolin
Fifty-five? 6th floor 10th door
When jackpot rot was hot, I was not
A rusty-ass child with tears N' snots
Acquired the knowledge how to master my thoughts
My skinny frail body couldn't fuck with the sports
Six feet two, still wack on the court
So I stalked New York with a black pitchfork
My style date back to ninety-watt
Cuttin the box while I be clocks with no socks
Remember the days before your pants would sag
Puerto Ricans on the block just throwin' up tags
(Frukwan)
Yo I was born with a rusty spoon as a mouthpiece
Life was hard cuz the graves was my company
Hang with my problems just as trouble predicted
To cross the path, as I laugh at the victed
No warmth for sure, the vents would spit average
Watchin' devils, fiend like a savage
Blood brothers need me call (ooh-ooh!)
In a minute, a minute, Ghostface N' all, check it
RZA, Grym N' the Undertake
Devils get baked, I'll stiff your ass like a eighth
Tortures N' screams buildin' up my steam
Death to whoever bumrushes through the bloodstream
Yo something ain't right, I don't get it
I feel a vibe, blood brothers, are you with it?
If I have to choose one or the other
Back the fuck up, spook, yo that's my blood brother
Chorus:(Too Poetic)
All, all, all in together
Blood brothers rollin' together (X4)(Too Poetic)
Back in the days of Lee's N' BVD's
I grew up deceived by wicked enemies

My lifespan began to dim in the error
When you can't even trust the man in the mirror
Now Gravedigga niggaz receive my trust
N' like Christ, we walk among the thieves N' the sluts
I bring stress like skins on PMS
The street's a bloody mess, there ain't no EMF
In sight my thoughts are to leave the slums
I hustle with beats N' drums, not keys N' guns
My feet are numb, as I walk my dogs
I cut off the fogs with the Gravedigga swords
Life parole, as me N' my man is violated
Hookers are neutered N' spated
Snakes are decapitated N' castrated
Niggaz is lost, your whole ark is bein' raided
Shows today are hectic, niggaz'll wreck shit
Lift off rounds N' jet quick
This piece is gettin' heated
Cuz a rush, a stampedin'
Devils are all defeated by the blood brothers(Chorus)(Frukwan)
Yeah, as the earth erupts
I conduct to destruct your flocksapea when I big up
Catastrophes are blaspheme
Pour a container of brains on your grave through a strainer
I capsize your coffin, I wreck your morphin
Breakin' devils down like Steve Austin
I gotta rip on a peel for a minute
Let's get some god degree
Cuz a blood brother's hard to be(Rzarector)
Power equality, Allah sees equality, follow me
Law N' order, blood is thicker than water
Many heads got slaughtered back in Latin Quarters
Like this brother named Rick Mostique
But got bit by the same mothafucka that he ran with
Band of the hand, the Clan's my fam
Something mom duke? could never understand
From the grave to the gutter, death to another
Who trie to fuck with my blood brothers(Chorus)
