

Stuck for an Outline

Lanterns on the Lake

All seeds grow in the right light
Even with my edges torn he sees my good side
I'm trying to get a message home to tell them I'm holding on
And that I'm going to prove them wrong this time tomorrow I won't be begging on my knees by
the road side now
You can keep it all from me, oh I don't mind
When I'm coloured in and you're stuck for an outline
Then you can take it all from me
I'll just start again All things flow in the grace of life As me and my sweetheart learned in the car
tonight
You know I'm going to give it all on wild whim
It's better with the headlights out, you can feel the night pulling
I won't be begging on my knees by the road side now
You can do your worst to me, I really don't mind
And when I'm coloured in and you're stuck for an outline
Then you can take it all from me
I'll just start again
