

# Justified

## A Day to Remember

Burn me alive if you feel that's justified  
I need more than faith to see you on the other side, the other side  
Can you hear me? The lowly one  
Do ya fear me? You righteous ones  
Bow down to all Earth's creation  
Every man of every nation  
Who's right and wrong at times like these?  
Burn me alive if you feel that's justified  
I need more than faith to see you on the other side, the other side  
Can you hear me? The lowly one  
Do ya fear me? You righteous ones  
I believe in a life before death  
That happiness and virtue coexist  
And if you only believe to hedge the bet  
You're gonna pay your debt!  
Burn me alive if you feel that's justified  
I need more than faith to see you on the other side, the other side  
The lowly ones need more than this to see you on the other side, the other side  
Burn me alive  
Feel nothing, leave nothing  
Learn nothing then be on your way  
Be on your way  
Do ya fear me? You righteous ones  
Can you hear me? The lowly one, the lowly ones
