

# All I Really Want

R. Kelly

Baby, we've been knowing each other  
For a long, long time  
For something like this  
To just go and break up everything Here we are just sitting here knowing we're all alone  
My Rolley's looking at me saying it's time to get it on  
You know what I want and baby, I know what you need  
So stop hesitating girl and give your love to me All I really want is to love you, baby  
Make your body feel like heaven, baby  
I just wanna satisfy you, baby  
That's all I want, that's all I want I just wanna give you something, baby  
I just wanna keep you coming, baby  
I just wanna make you happy, baby  
That's all I want, that's all I want  
Though the fireplace is burning marshmallows just right  
To who it may concern you won't be coming home tonight  
Body parts that he didn't kiss girl, I will kiss for you  
Just put this CD on repeat and let me pamper you All I really want is to love you, baby  
Make your body feel like heaven, baby  
I just wanna satisfy you, baby  
That's all I want, that's all I want I just wanna give you something, baby  
I just wanna keep you coming, baby  
I just wanna make you happy, baby  
That's all I want, that's all I want Now the swimming pools out back  
Come on and skinny dip baby  
With breakfast in the morning  
Darling, compliments of me  
In the middle of the night  
Best believe, I'm going in  
So hold your pillow tight  
'Cause I wanna do it again and again All I really want is to love you, baby  
Make your body feel like heaven, baby  
I just wanna satisfy you, baby  
That's all I want, that's all I want I just wanna give you something, baby  
I just wanna keep you coming, baby  
I just wanna make you happy, baby  
That's all I want, that's all I want Till the sun comes up  
Baby, we'll be making love  
And when the sun goes down  
Still we won't have enough Take this love to cure  
It will take care of all your needs  
Baby, rest assure  
I just wanna set you free, free yeah All I really want is to love you, baby

Make your body feel like heaven, baby  
I just wanna satisfy you, baby  
That? s all I want, that? s all I wantI just wanna give you something, baby  
I just wanna keep you coming, baby  
I just wanna make you happy, baby  
That? s all I want, that? s all I wantAll I really want is to love you, baby  
Make your body feel like heaven, baby  
I just wanna satisfy you, baby  
That? s all I want, that? s all I wantI just wanna give you something, baby  
I just wanna keep you coming, baby  
I just wanna make you happy, baby  
That? s all I want, that? s all I wantAll I really want is to love you, baby  
Make your body feel like heaven, baby  
I just wanna satisfy you, baby  
That? s all I want, that? s all I wantI just wanna give you something, baby  
I just wanna keep you coming, baby
