

# The Dollar

Jamey Johnson

Daddy hugs his little man  
Says, son I've got to go  
And he pulls out of the drive and disappears  
As they walk back in the house  
The young boy asks his mama  
"here does daddy go when he leaves hereMama tells her little man,  
Your daddy's got a job  
And when he goes to work they pay him for his time  
Well the young boy gets to thinking  
And he heads up to his bedroom  
And comes running back with a quarter and four dimes  
And says, mama, how much time will this buy me  
Is it enough to take me fishing or throw a football in the street  
If I'm a little short then how much more does daddy need  
To spend some time with meThe young boy tells his mama  
Now I know daddy's busy  
'Cause most times when he gets home it's dark outside  
But tell him I've got me some pennies  
Saved up from the tooth fairy  
And I keep 'em in my piggy bank and I believe there's thirty-fiveAnd mama, how much time  
will that buy me  
Is it enough to take me camping in a tent down by the creek  
If I'm a little short then how much more does daddy need  
To spend some time with meMama, how much time will this buy me  
Is it enough for just an afternoon a day or a whole week  
If I'm a little short then how much more does daddy need  
To spend some time with me  
Mama takes her little man  
Sets him on her lap  
And starts dialing up some numbers on the phone  
She says, daddy come home early  
You don't have to chase that dollar  
'Cause your little man has got one here at home
