

# Growin' Younger

Randy Houser

Time goes by, you can't get it back  
It's a one-way ride, you gotta make it last  
Ain't nobody got no plans to settle down  
All we're thinkin' 'bout is right here and right now  
We got our hands up, rockin' like a boat  
Rollin' with the flow, poppin' like the 4th of July  
We drink it all up, every little sip  
Taste it on your lips, every single drop of life  
We're gonna live this never-ending summer  
We're just growin' younger  
Well, today don't care if we stay out all night  
Let down your hair honey, it's all gonna be alright  
Ain't nobody here to tell us what to do  
Ain't no stopping baby, you got me and I got you  
We got our hands up, rockin' like a boat  
Rollin' with the flow, poppin' like the 4th of July  
We drink it all up, every little sip  
Taste it on your lips, every single drop of life  
Yeah, we're gonna live this never-ending summer  
Like we're just growin' younger  
Come on, come on now  
We gotta live it up  
Never going down  
We got our hands up, rockin' like a boat  
Rollin' with the flow, poppin' like the 4th of July  
That's right  
We drink it all up, every little sip  
Taste it on your lips, every single drop of life  
We got our hands up, rockin' like a boat  
Rollin' with the flow, poppin' like the 4th of July  
We drink it all up, every little sip  
Taste it on your lips, every single drop of life  
We're gonna live this never-ending summer  
Yeah, we're gonna live this never-ending summer  
Like we're just growin' younger  
We're just growin' younger  
Just growin' younger  
We're gonna live it up
