

Piss Angel

Pig Destroyer

I see you headless
with me caressing your neck
My personal nightfall

An eclipse of the sunflowers I feel so invisible (so unknown) Coffin of dust
An illegible tombstone They finally buried the gravedigger in the sky I just need to shower in
your amber and bathe in your earth

Outro:

Everyone quickly hushed up and took a step back as
Jennifer rose and stood over the girl, examining her
handiwork. Her heart layed motionless beneath her,
seemingly dead. Her eyesockets dry and empty. Her
heels and elbows sprayed and bloodied. Some on-lookers
gaspd in horror. Some swooned and fainted
melodramatically. Most just stared in disbelief.
Jennifer reached down between her thighs and pulled
the crotch of her bathing suit to the side - exposing
her vagina. The other girl slowly sat up and began
sliding her fingers into Jennifer. A few minutes
later, her wrists were in, then her elbows. Eventually
she would completely disappear into her womb. Jennifer
tilted her head to the side curiously. She heard the
sound of a rickety-wooden roller-coaster in the
distance. It's passengers screaming in mob terror. She
knew that sooner or later they would realize that the
ride wasn't stopping and they were all going to die.
