## **Someday**

## **Julian Lennon**

How does it feel to be one of the beautiful people?

Say a prayer and close your eyes

Someday, someday

Hope and pray we get it right

One day, one day

Everyone's the same (Everyone's the same)

We get lost and we get broken

Isn't it a shame? (Isn't it a shame?)

Words unspokenWe're all in it together

Someday, someday

One love now and forever

Someday, someday

Wish our dreams could be as one

Someday, someday

Try to fix what we've undone

One day, one day

Nothing stays the same

When you're lost and when you're broken

All that's left remains (All that's left remains)

Words unspokenWe're all in it together

Someday, someday

One love now and forever

Someday, someday

We're all in it together

Someday, someday

One love now and forever

Someday, somedayWell it's not about right or wrong

Or how far down the road we've gone

Oh oh, it's just about holding on How does it feel to be one of the beautiful people?

We're all in it together

Someday, someday

One love now and forever

Someday, someday

Say a prayer and close your eyes

If you don't mind how many tries

It's not your ship you think you steer

What you believe just might appear

One love now and forever

Someday, someday

We're all in it together

Someday, someday

Say a prayer and close your eyes

If you don't mind how many tries Someday, someday

How does it feel to be one of the beautiful people? Someday, someday

How does it feel to be one of the beautiful people? Someday, someday

How does it feel to be one of the beautiful people? Someday, someday

How does it feel to be one of the beautiful people? Someday, someday

How does it feel to be one of the beautiful people? Someday, someday
