

Little Star

Stina Nordenstam

little star
so you had to go
you must have wanted him to know
you must have wanted the world to know poor little thing
and now they know little star
i had to close my eyes
there was a fire at the warehouse
they're always waiting for a thing like this
came travelin' from all over town
for you

little star

Laudamus, Adoramus Te, Domine
Laudamus, Benedicimus Domine Deus
Laudamus, Benedicimus Domine Deus
Cum Sancto Spiritu in gloria Dei Patris' We praise, we worship you, Lord
We praise, we pray to you Lord God
We praise, we pray to you Lord God
With the Holy Spirit in the glory of God the Father'

little star

so you had to go
you must have wanted him to know
you must have wanted the world to know poor little thing
and now they know
for you, little star
